**ADVANCED DATA PROCESSING, INC. ANNOUNCES INTEGRATION OF
TRIPTIX™ WITH LIFEPAK12®**

Allows for Secure Wireless Data Exchange for Ambulance Crews

Ft. Lauderdale, FL – Advanced Data Processing, Inc. (“ADPI”), the nation’s leading ambulance billing solutions company, announced the successful integration of Medtronic’s LIFEPAK12® Defibrillator/Monitor Series with Intermedix Technologies, Inc.’s Triptix™ electronic patient medical record system. Using wireless connectivity, ambulance crews can quickly and securely import patient and medical record data into the electronic medical record with one simple click.

Triptix™ is a mobile, tablet-based, electronic patient care reporting solution for ambulance providers. Triptix™ connects wirelessly with the ADPI/Intermedix billing platform allowing secure transmission of electronic patient care reports, including defibrillator/monitor data. ADPI/Intermedix customers can access a comprehensive view of financial and clinical patient data including document images from a secure on-line web connection. ADPI/Intermedix’ fully redundant and highly secure data center ensures full disaster recovery capabilities and unparalleled system security.

Advanced Data Processing, Inc. (www.emsclaims.com) specializes in emergency medical services billing. With a twenty-five year history, the company is the largest provider of ambulance (EMS) billing services in the country with five regional operations centers serving over 200 clients.

Intermedix Technologies, Inc. (www.intermedix.com) is a wholly-owned subsidiary of Advanced Data Processing, Inc. providing tabletPC and web-based solutions that help EMS providers securely and efficiently capture and manage patient encounter data from the point-of-care wirelessly and seamlessly through the billing cycle.

Medtronic, Inc. (www.medtronic.com), headquartered in Minneapolis, is the global leader in medical technology – alleviating pain, restoring health, and extending life for millions of people around the world.
